

FIND THE TREATMENT AND SUPPORT SERVICES THAT ARE RIGHT FOR YOU.

KEYSTONE RESIDENTIAL TREATMENT CENTER

It is the mission of Keystone Treatment Center to provide quality treatment to chemically dependent persons, pathological gamblers, persons with co-occurring illnesses (addiction & psychiatric disorders) and their families. We will provide quality care for all the individuals and agencies we serve. We believe that it is our professional responsibility to determine the appropriate level of care and to provide that level of care for each patient. We are committed to rendering this treatment to all individuals we serve. We are committed to rendering this treatment in an atmosphere of integrity, respect, accountability, trust, honesty, responsibility and excellence through supportive confrontation, sharing of feelings, reality orientation and medical/psychiatric management. We believe that treatment starts with assessment and continues through to continuing care/aftercare plans and follow up care.
