

FIND THE TREATMENT AND SUPPORT SERVICES THAT ARE RIGHT FOR YOU.

Access and Care Coordination Center

Lac Vieux Desert Band of Lake Superior Chippewa Indians Behavioral Health Department

Dependence on alcohol or other chemicals impacts every aspect of one’s life. Spiritual, emotional, social, physical, and intellectual areas are enhanced in outpatient treatment. Following an assessment, each client develops a treatment plan with their counselor that is tailored to their own unique needs. The entire family suffers from chemical dependence, and as such an integral part of the program is working with family members to teach them to practice “self care” and how to change behavioral patterns that enable the substance abuser to continue using.

Service Population:

- ◆ Eligible clients are enrolled members of the collaborating tribes and members of other Federally recognized, State recognized and Canadian tribes residing in the project service area, as well as Non-Native family members and descendants
- ◆ Adult & Adolescent (12-18)
- ◆ Males & Females
